300 North (SR-107) Bridge Rehabilitation

300 NORTH (SR-107) BRIDGE TO CLOSE FOR REHABILITATION

The Utah Department of Transportation in conjunction with Clearfield City has determined it will be necessary to close the Bridge on 300 North for major rehabilitation. The bridge is in need of repair and work space is limited, so maintaining a lane open over the bridge is not a viable option. The closure is planned to take place throughout the summer.

Because of the bridge closure, a detour route will be designated. Please see the map below for the detour that will be provided once the closure is in effect. Also note that there will be occasional nighttime work; however residents can be notified in advance of those activities and any other project updates by joining our email list. Send an email to 300north@utah.gov, to be added to the update email list.
