

The Davis & Weber Canal Company will be replacing the concrete box culvert under 650 North. To facilitate canal work, **650 North will be closed between the I-15 Interchange (Exit 335) and Main Street (SR-126) in Clearfield from 8 p.m. on Thursday, March 10 to 11:59 p.m. on Monday, March 14.** All I-15 interchange ramps and access to the Hill Air Force Base West Gate will remain open from the freeway during the closure, however, the road will be closed between the interchange and Main Street.

As alternate routes to access the freeway and Main Street during the closure, motorists may use the Roy 5600 South Interchange (Exit 338) or Clearfield 700 South Interchange (Exit 334, SR-193). Base traffic may use the Roy (5600 South) or South Gates (from SR-193) as alternate routes.

More information is available by contacting the project public information team at 801-699-6066 or [aneff@langdongroupinc.com](mailto:aneff@langdongroupinc.com).
