The Master Ballot Position is determined by the Lt. Governor's office in accordance with Utah State Code 20A-6-305.

The 2021 Clinton City Municipal General Election will be conducted as Vote by Mail in coordination with the Davis County Clerk/Auditor. For information on Vote by Mail & Voter Registration visit www.DavisVotes.com. For those who wish to vote early, ballots can be dropped off in a secure drop box in the Recreation Department parking lot 1651 W 2300 N prior to the election. Voters can deposit ballots in any official Davis County drop box up until 8:00 pm on Nov 2. If voters put their ballot in the mail, it is recommended that they mail them by the October 29, 2021. It must be postmarked on or before Mon Nov 1 to be counted. For those who wish to vote in person, a polling location will be available at Clinton City Recreation 1651 W 2300 N on Nov 2, 2021 from 7 am to 8pm.

If you have questions visit www.DavisVotes.com or call 801-451-3589 for ballot drop box locations and candidate information.

PARKS BOARD NEWS

For those getting an early start on Christmas shopping, our Veteran's Memorial plaques would make great gifts for the veterans in your family. Information and the order form can be found on the city's website at www.clintoncity.net or call 801-614-0700.

We're still looking for a volunteer to fill a vacant spot on our Advisory Board. You can find an application on the city's website also.

The Parks Board would like to thank all those who came out on September 11th to help clean up the rail trail.

HILL AIR FORCE BASE OFFERS INDOOR AIR SAMPLING

The Air Force has begun its annual outreach to homes and businesses in Clinton near areas of groundwater contamination from HAFB. Those affected will receive a packet in the mail offering free indoor air sampling to determine if potentially harmful vapors from the groundwater could be entering homes or workplaces. Sampling will take place October 2021 through March 2022. If vapors are found above established action levels, steps will be taken to prevent those vapors from entering the home or building. The city drinking water has not been affected by the contamination.

If you do not receive a letter, you are not within an area of concern. Those receiving the mailing are encouraged to request indoor air sampling. Information about the program, including COVID precautions and maps showing the areas eligible for sampling is available at www.hill.af.mil/IAP. Please call 801-775-3651 or 801-775-3652 if you have questions.

FALL CLEAN UP is scheduled for Sat, Oct 23 from 8 am to 1 pm at the Clinton Public Works Shop 1711 W 1800 N. Please call 801-614-0870 with questions. Proof of residency may be required.

Please trim your trees and shrubs in park strips now so that we can snow plow this winter. The City Code (25-16-5) states: "All shrubs and trees shall be pruned to permit plain view of regulatory (street and stop) and caution signs, utility accesses, and so that they do not overhang the curb in the street twelve (12) feet or the sidewalk eight (8) feet." Thank you!

Learn the Sounds of Fire Safety

Is there a beep or a chirp coming out of your smoke or carbon monoxide alarm? What does it all mean? Knowing the difference can save you, your home, and your family! Make sure everyone in the home understands the sounds of the smoke and carbon monoxide alarms and knows how to respond. Learn the sounds of your smoke and carbon monoxide alarms by checking the user guide or search the brand and model online.

What is your alarm telling you?

SMOKE ALARMS

- A continued set of three loud beeps—beep, beep, beep—means smoke or fire. Get out, call **9-1-1**, and stay out.
- A single "chirp" every 30 or 60 seconds means the battery is low and must be changed.
- All smoke alarms must be replaced after 10 years.
- Chirping that continues after the battery has been replaced means the alarm is at the end of its life and the unit must be replaced.

CARBON MONOXIDE (CO) ALARMS

- A continuous set of four loud beeps—beep, beep, beep, beep—means carbon monoxide is present in your home. Go outside, call **9-1-1** and stay out.
- A single chirp every 30 or 60 seconds means the battery is low and must be replaced.
- CO alarms also have "end of life" sounds that vary by manufacturer. This means it's time to get a new CO alarm.
- Chirping that continues after the battery has been replaced means the alarm is at the end of its life and the unit must be replaced.

Make sure your smoke and CO alarms meet the needs of everyone in your home, including those with sensory or physical disabilities.

Some tips:

- ✓ Install a bedside alert device that responds to the sound of the smoke and CO alarms. Use of a low frequency alarm can also wake a sleeping person with mild to severe hearing loss.
- ✓ Sleep with your mobility device, glasses, and phone close to your bed.
- ✓ Keep pathways like hallways lit with night lights and free from clutter to make sure everyone can get out safely.

Hear a Beep, Get On Your Feet!
 Get out and stay out! Call 9-1-1 from outside.

Hear a Chirp, Make a Change!
 A chirping alarm needs attention. Replace the batteries or the entire unit if it's over 10 years old. If you don't remember how old the unit is, replace it!
