

Clinton Fire

2024

# ANNUAL REPORT

# MESSAGE FROM THE CHIEF

As your Fire Chief, I am proud to serve alongside our dedicated team of Fire and EMS professionals who are committed to ensuring the safety and well-being of every person in our city. We believe in providing a rapid, effective response to all emergencies, driven by a core principle of service to others.

Our team is made up of highly trained and skilled individuals who are not only professionals in their respective fields but also deeply committed to upholding the values of integrity, respect, and professionalism. We take great pride in being there when you need us most, whether it's extinguishing a fire, providing emergency medical services, or simply supporting our community in times of need.

Our dedication goes beyond just responding to emergencies. We strive to build strong relationships with our residents, ensure proactive education on safety, and continuously improve the quality of our services. Through ongoing training, teamwork, and unwavering dedication, we ensure that we are prepared for any situation, no matter how complex.

Your safety is our top priority. We are here to serve, protect, and ensure that you have peace of mind, knowing that professionals are ready and equipped to respond to any challenge.

Thank you for your trust and support in allowing us to serve our community.

Sincerely,  
Chief Jason Poulsen

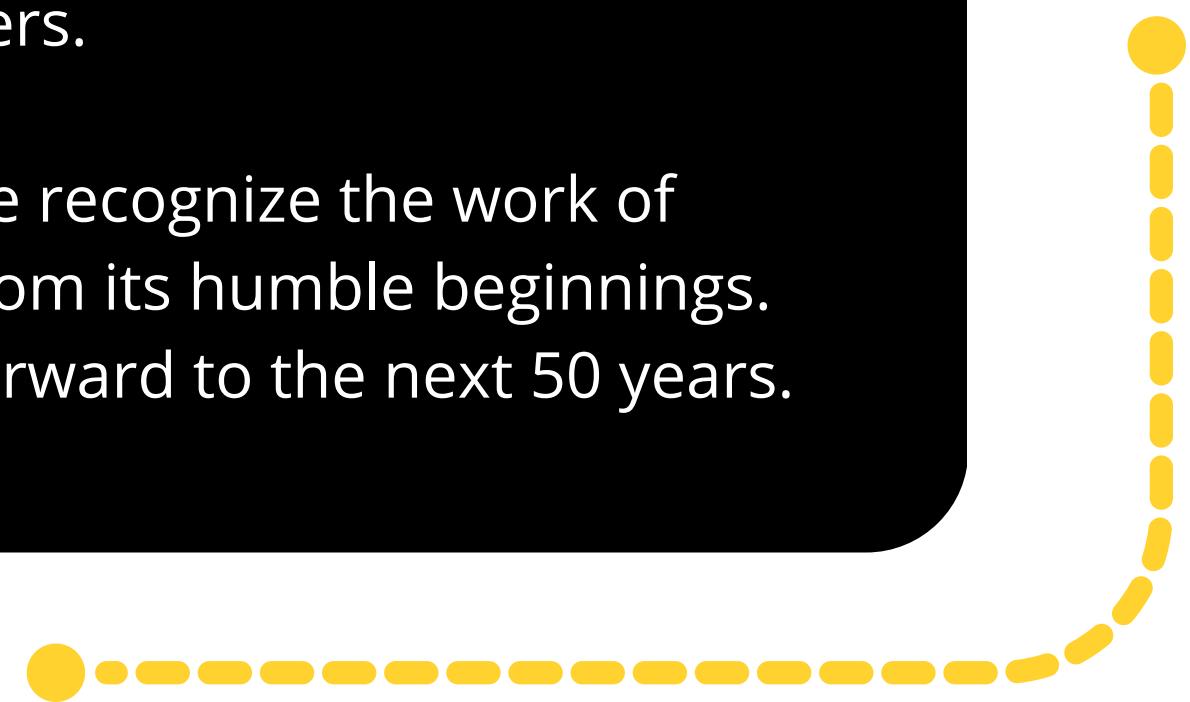

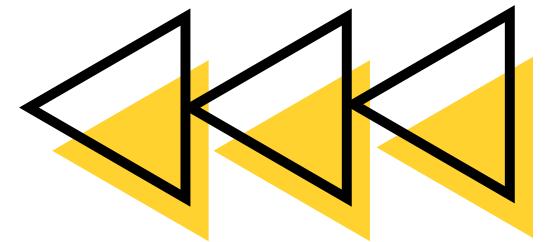

# 50 YEARS AND COUNTING

The Clinton City Fire Department was established in 1975 by a small group of local volunteer firefighters. These brave firefighters worked full-time jobs in other industries and were dispatched on fires as required. The City obtained two surplus pieces of fire equipment on loan from State Forestry and Fire, and began training their volunteers.

This year, as we celebrate our 50th Anniversary as a department we recognize the work of many dedicated individuals who have advanced this department from its humble beginnings. We are honored to serve this great Clinton Community, and look forward to the next 50 years.

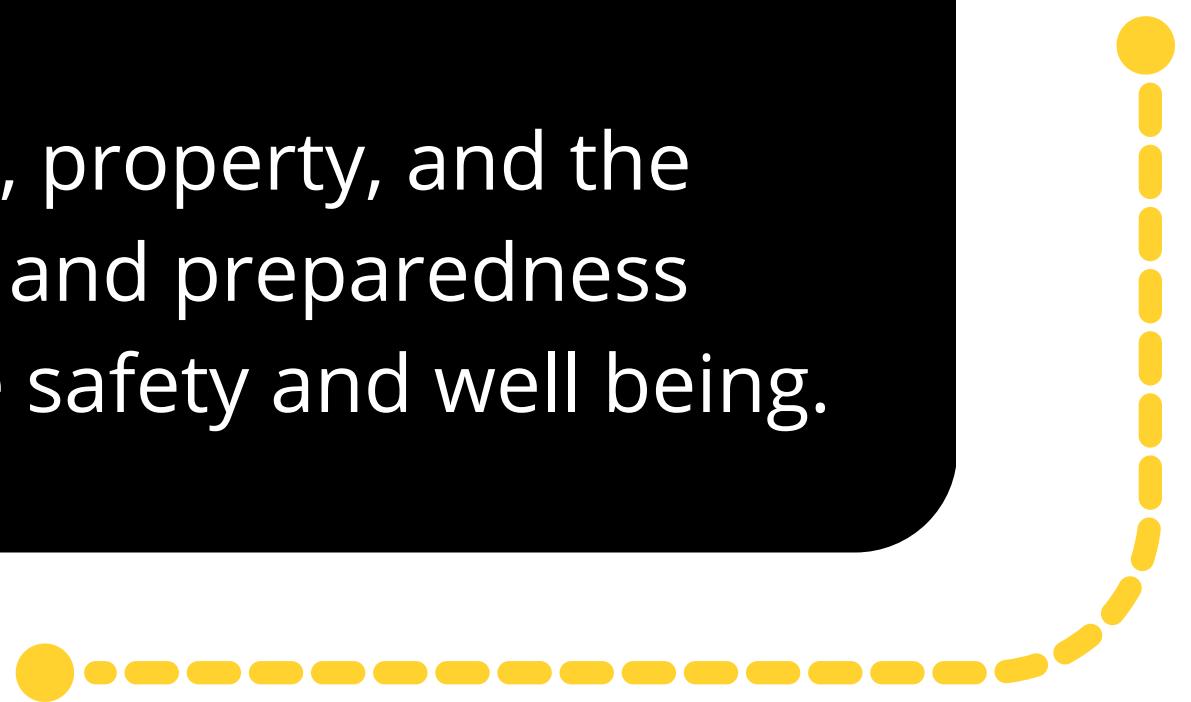

## VISION

To strengthen community safety through advancement, bravery, and commitment.

## MISSION

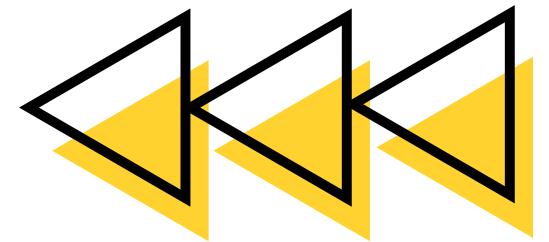

To mitigate the impact of hazardous situations on life, property, and the environment through effective response, prevention, and preparedness programs, while maintaining a high level of employee safety and well being.

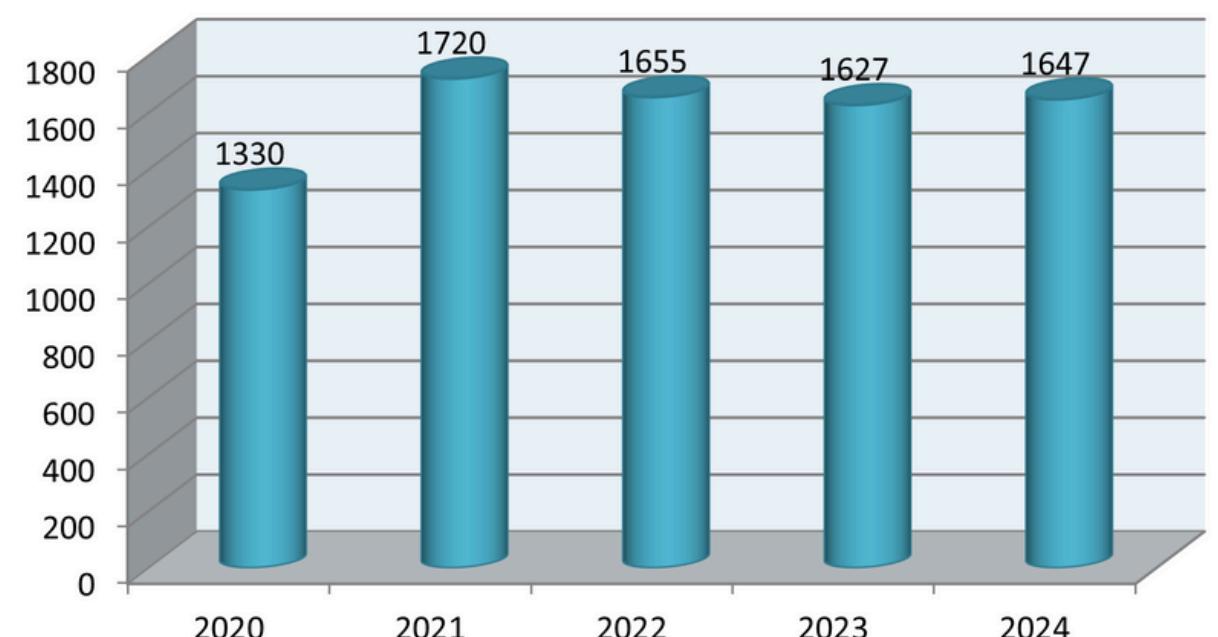

## CHANGES TO OUR TEAM IN 2024

- Chief David Olsen retired
- Captain Timothy Vega retired
- Full-time employees hired: 4
- Part-time employees hired: 5

# AMBULANCE REVENUE

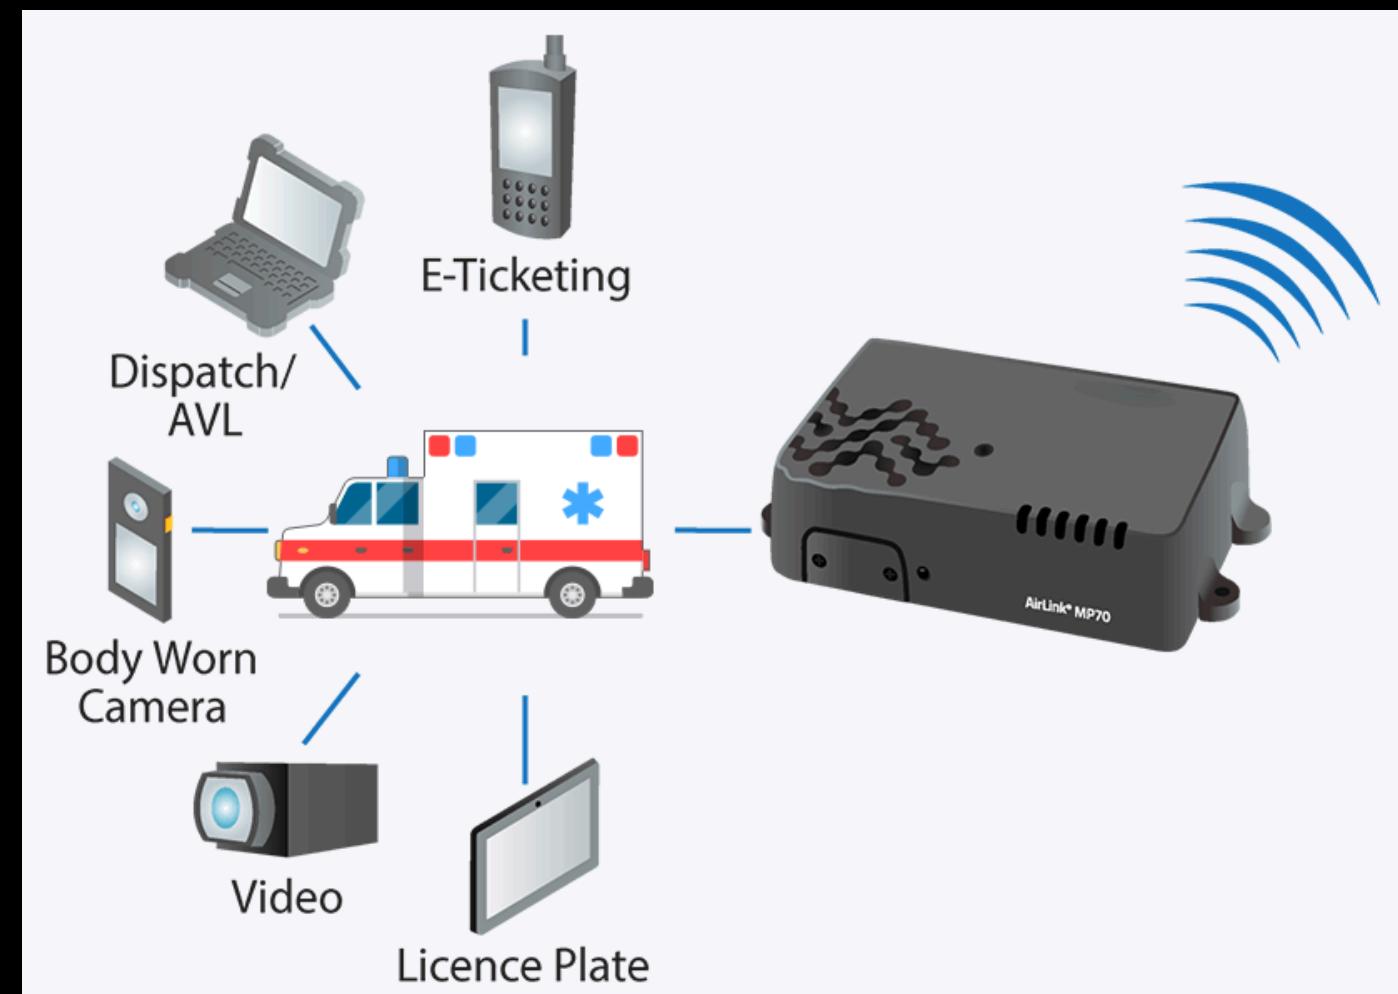

Clinton City has a contract with an outside medical billing company to bill insurance companies and patients for ambulance services. We have worked with Iris Medical for many years, but they closed their doors in January 2025. We have entered a contract with a new billing company beginning January 1, 2025. First Professional Services has been in operation in Utah for over 25 years and we are confident that they will provide excellent billing services for Clinton City.

# NEW EQUIPMENT

## AVL

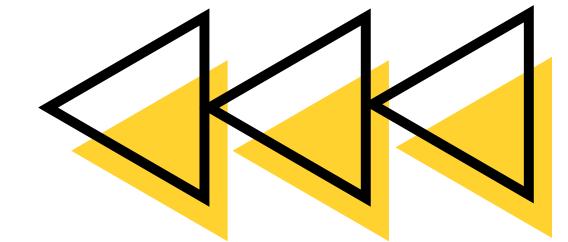

The Automatic Vehicle Location system was initiated in January 2024. This system uses GPS tracking to locate paramedic units, enabling emergency dispatchers to send the closest available paramedic unit to medical emergencies. In medical emergencies time counts! This technology gets experienced caregivers to patients faster than ever.

# NEW EQUIPMENT

## LUCAS III

The Lund University Cardiopulmonary Assist System is a device that performs mechanical chest compressions during CPR. The LUCAS performs constant and effective compressions which reduces strain on care providers and increases survival rates for patients.

# NEW EQUIPMENT

## Motorola APX 6000

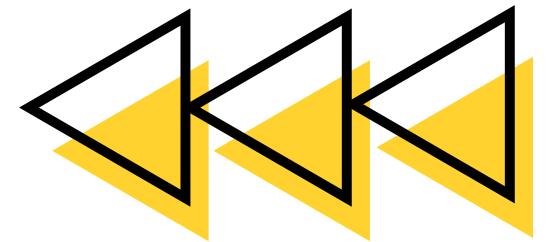

Motorola portable two-way radios used for communication during emergencies.

## Bailout Bag

A bailout bag is a specialized bag that firefighters carry to provide a way to escape from dangerous situations when their normal escape is blocked by fire or building collapse. It contains necessary equipment like ropes, descent devices, and safety harnesses to help firefighters safely descend from a higher level.
